Terms of Subscription by Mail for Daily Bonanza:
 One Year \$12.00
 Six Months \$7.00
 Three Months \$4.00
 One Month \$1.00
 Delivered by Carrier, \$1.25 per Month.

A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

The Associated Press is exclusively entitled to the use for republication of all news credited to it or not otherwise credited in this paper and also the local news published herein. All rights of republication of special dispatches herein are also reserved.

The Bonanza is kept on file at Dempsey & Stanley, Turk and Mason streets, San Francisco.

Entered at the postoffice in Tonopah as second class matter.

TONOPAH SAVES THE DAY

THE working mines and millmen together with the organized trades of Tonopah are to be congratulated on the stand they took in connection with the vote accepting the proposition of the Mine Operators' Association granting an advance of fifty cents a day to all men employed by the companies operating in the Tonopah district. This carries with it the highest scale of wages paid to any division of mine labor and with living conditions as good, if not better, than in many other places, the move will be accepted as an appreciation of the generosity of the owners. There was no strike demand, calling for this concession for the representations of the men were in the shape of a petition drafted in dignified terms calling attention to the economic conditions that had been knocked out of parity since the last raise of fifty cents had been extended the workers of this district. The operators met the committee in the same spirit of fairness that always has characterized their dealings and the pleasant family relations maintained between the two classes were not disrupted or even menaced by the meeting of the two bodies. The fact that the men signified their acceptance by a substantial majority gives the radical element a prompt and effective rebuke for endeavoring to use coercion through pressing demands that were wholly out of reason.

The attitude of the mine operators was frankly generous and reached after a comparison with other mining districts of this state where the allotments of men of families are not so strong as the ties that bind the local workers to Tonopah. The outlook for mining investments are not so bright as some of the troublemakers would have it appear, for the ever increasing war taxes and the sur-taxes on excess profits which are an unknown quantity the big metal producers of the country are in a position that baffles the keenest intellect outside Congress. Until the war tax bill passes both houses and receives the president's signature the effects on local industries will be a matter of conjecture but it is already apparent that the new taxes will take away from the operators a large proportion of the profits that formerly accrued from their investments. With these things in mind it is pleasant to note the temperate tone that marked the conferences of both employers and employees and the Bonanza trusts that in the future all differences of opinion will be met the same way through meeting and discussing individual interests across a table where sober reflection and common sense are the deciding factors.

EMPTY REGRETS FROM HOLLOW HEARTS

REGRETS appear very fruitful in Prussia in spite of famine conditions. They sprout on every bush, bristle on the tongue of every orator and flourish in the script of every writer. They are as empty and void of expression and sincerity as the famous scrap of paper on which the war was based and without the slightest pretension to earnestness suitable for the contemplation of ordinary mortals. There is a time when the hackneyed expression "I regret to say" is taboo. When a versatile letter writer wishes to express himself felicitously on a distasteful subject he seldom obtrudes the emblems of grief at the opening chapter but ingeniously weaves them into his story in such a manner that they pave the way for the lachrymal expression without any smivelling or mock sorrow. From the days of the sinking of the Sussex and the Lusitania to the more recent sinking of an Argentine ship the government has wrung copious tears from its capacious eyes while telling of her extreme regret for the occurrence. Nevertheless there has not been any change of heart, for that nation has gone on its own methodical method of perpetrating murder and arson with nothing more than its own malignant self to gratify. The same policy has been followed in the treatment of Sweden. The only real regret is that following discovery. Even Von Bernstorff, the German minister to the United States, expressed his deep regret for the events that led to his divorce from American politics. He said he was the friend of the American people and pointed to his American wife as a proof of his love of this country but, a few weeks later, it became evident that he was nothing more than an ardent hypocrite whose hands were as deeply imbrued in crimes against the American people that a wave of horror arose on their first suggestion. It was ever thus. The man who is not with the German government is treated as an enemy and made the target for the diabolical plots conceived with all low cunning of a Lucifer. There is an old Arabian maxim which is just atrocious enough to fit into the unprincipled scheme of German plotting and it is this: "Sinning is the best part of repentance."

ITALY'S ANSWER TO PEACE TALK

ALL THE friends of right and freedom must congratulate Italy on the fine week's work which is the best answer to German and Austrian peace talk. The battle on the frontier is commencing to reveal itself in its vastness. The fall of Monte Santo was a tribute to the prowess of the Italian troops but the capture of San Gabriello is evidence of the fact that the men of the Italian armies are not going to be satisfied with any halfway victories and that eventually they will ride triumphant into Trieste and seat themselves as masters of the famous stronghold of Pola where Austria has centered her chief arsenals. The Austrians looked upon San Gabriello as impregnable and were convinced that its defenses would baffle the valor of the enemy. It was the key of the whole system of Austrian defenses before Gorizia and from its heights they were able to conveniently direct the fire of their guns hidden in the ravines of Monte Gargaro. The fighting is not yet over but few troops can sustain without deterioration a succession of such blows as the Second Italian Army has dealt the Austrians during the past eight days. The prisoners recently brought into the concentration camps already exceed 23,000 men and 660 officers and great amounts of ammunition and food. The food is of particular advantage to the visitors since their march leads them across pathless mountains.

Germany continues to exact a death toll from the Red Cross ambulance corps which promises to complete the alienation of human interest from this Prussianized tiger which lusts for the blood of innocent people who are engaged in work of mercy.

When Governor Ferguson of Texas invokes his God to attest his innocence some of his hearers may have thought that he was protesting too much.

BOND ELECTION CARRIES.

The election held at Minden for the rejection or adoption of a bond issue for \$15,000 to be used for the erection of a new school house, was carried unanimously, there not being one dissenting vote against the bond issue. Sixty-eight ballots were cast, all of which were for the bonds. It is estimated that there are 150 voters residing in the school district.—Record-Courier.

METROPOLIS WILL SHIP 25 CARLOADS P-TATOES

Prof. Campbell, who has just been at Metropolis, and under whose direction the people of that community are tilling their soil, tells us that the potato crop at Metropolis will be enormous this season. There will be sold and shipped at least 165,000 bushels, and the quality is the finest of any spuds raised out of doors. Part of these potatoes were raised by the dry farm method, but the largest portion comes from irrigated ground.—Kilko Free Press.

BASEBALL GAMES

NATIONAL LEAGUE

(By Associated Press.)

CHICAGO, Sept. 18.—New York kept its pace in the National League pennant race by shutting out Chicago 5 to 0 in the first game of the series. The game was a pitching duel between Schupp and Douglas, but the latter was unable to go through with it, while the former kept the locals' hits scattered and was backed with some sparkling support, three double plays aiding him materially.

(By Associated Press.)

CINCINNATI, Sept. 17.—Alexander was a puzzle to the Cincinnati club and Philadelphia took the game 4 to 1. The locals were unable to do anything with men on base except in the sixth, when doubles by Chase and Wingo netted a run. Mitchell lasted less than an inning in the box for Cincinnati.

(By Associated Press.)

PITTSBURGH, Sept. 18.—Miller, after pitching good ball for fourteenth innings, weakened in the fifteenth and Boston defeated Pittsburgh in the opening game of the series here 4 to 1. In the first half of the fifteenth, with two out, Regh and Maraville singled, Powell tripled and Tyler singled, scoring three runs. Pittsburgh filled the bases in the last half of the inning, but Kelly took W. Wagner's fly which looked good for three bases for the third out.

PLANTING LAWNS WITH VEGETABLES

(By Associated Press.)

EL PASO, Tex., Sept. 17.—Not content with doing their bit by planting the lawns adjoining the general offices here with a war crop of beans, the officials of the El Paso & Southwestern railroad system have offered prizes for the best war garden to be grown by the section foremen or section hands along the right-of-way of the railroad system in Arizona, New Mexico and Texas.

As the limited trains speed along the railroad the little plots of cultivated ground may be seen beside the track and, if it is after working hours, the section men hoeing and watering their crops of beans, cabbage and potatoes. This plan has also been adopted by the Rock Island system, which connects with the Southwestern system.

SAVING INJURED BY USING SERUMS

(Correspondence Associated Press.)

PARIS, Aug. —During the last meeting of the Surgical Society Doctor Predet mentioned a fact which seemed to show the value of preventive injections of anti-tetanus serum.

After the battle of Ourey, a certain number of wounded French and German soldiers were collected in a hospital. A German doctor had remained with the German wounded and, although sufficient serum was placed at his disposal, he refused to use it for his men, saying that he considered such injections had no preventive value.

The French wounded received normal doses of the serum. Of twelve German wounded, six contracted tetanus (lockjaw) and died, while no French wounded showed any symptom of it. This example of the serum's preventive efficacy has all the more weight because all the men had been wounded under the same conditions and on the same tetanus-infected ground.

TRACTOR HAULS WHEAT.

Dick Swope, the prosperous Stillwater rancher, has been hauling his wheat crop to Fallon this week with a tractor engine. Tuesday he brought in 15 tons and Thursday 18 tons, the latter being hauled in five wagons. This was all first-class Marquis hard wheat and was sold to the Fallon flour mill for \$70 a ton, making the neat sum of \$2,210 for the two loads.—Churchill Eagle.

AMERICAN ASSOCIATION

(By Associated Press.)

CHICAGO, Sept. 18.—With the close of the American Association pennant race two days away, Indianapolis is firmly entrenched in first place as a result of 3 to 2 victory over Milwaukee while St. Paul was losing to Columbus 5 to 4. The defeat of St. Paul places the club in a tie with Louisville for second place. Louisville defeated Kansas City 4 to 3. Indianapolis now has a lead of two and a half games. The standing of the leaders:

	Won.	Lost.	Pct.
Indianapolis	89	62	.583
St. Paul	87	65	.572
Louisville	87	65	.572

AMERICAN LEAGUE.

(By Associated Press.)

NEW YORK, Sept. 18.—Boston, playing its last 1917 game on the road, defeated New York 6 to 1. Boston took the series, three games out of four. Boston hit each of New York's pitchers hard, while Leonard permitted only five hits.

WOMAN'S DEATH NOT CLEARED UP

WAS MRS. KELLEY MURDERED BY DISLOYALISTS AT CAMP OF RAWHIDE?

A veil of mystery still continues to shroud the killing of Mrs. Kelley, which occurred at Rawhide two weeks ago. Notwithstanding the efforts of those connected with the occurrence to minimize the reports that have leaked out, the impression gains force that there is considerably more behind the affair than has yet been made public, says the Fallon Standard.

One of the participants in the affair was in Fallon last week and when questioned stated that there was "nothing to it" and that Mrs. Kelley's injuries were the result of a fall. However, the character of the numerous wounds on the woman's head and body as disclosed at the coroner's investigation forbid any such explanation and go far toward emphasizing the allegation that an attempt is being made to cover up the real facts.

From all accounts that have reached the outside it is very apparent that there exists in Rawhide a strong pro-German sentiment that in this case has been given forcible expression. Whatever may be said of the private character or habits of the dead woman, there is every reason for believing that she was the victim of this disloyal sentiment and for this reason the affair takes on a significance that might not attach were she merely the unfortunate victim of a drunken brawl.

BOY IS KILLED BY AN ENGINE.

Ernest Roberts, assistant hostler at the Western Pacific roundhouse, while riding on a locomotive in the Winnemucca yards, slipped and fell to the track and was run over and so badly injured that he died. No one saw the accident. He was found lying on the track near the sand-house and from every indication the boy had been riding on the side of the engine and fell off, the wheels of the locomotive passing over his left leg, severing the limb and also crushing his right leg below the knee.

It was the intention to take him on a special train to the company hospital at Portola, but he was, too badly injured and passed away at 1 o'clock.

He would have been 16 years of age on the 26th of October had he lived. He was born in Winnemucca and prior to his starting work for the railroad company attended the public school. He was well liked by all who knew him and his former schoolmates and the people of Winnemucca in general regret his untimely taking away.

He was the only son of Ben Roberts, also an employee of the Western Pacific, and besides his father he leaves to mourn his loss his sister, Nora Roberts. The mother passed away six years ago.

After the inquest the remains were taken to Reno, where the funeral was held.

PENSIONS FOR POLYGAMISTS

(By Associated Press.)

PARIS, Aug. —The military authorities have had to settle a knotty question. In the case of a military polygamist being killed, how should the widow's pension be allotted? The question has arisen through French having brought many native soldiers from Africa who belong to tribes where polygamy is the recognized practice. Every polygamist widow will have a share in the pension, the total of which will be the same as that granted to the widow of a monogamous soldier.

AGUINALDO NOW U. S. LIEUTENANT

(By Associated Press.)

SAN FRANCISCO, Sept. 18.—Miguel Aguinaldo, son of Gen. Emilio Aguinaldo, Filipino rebel, whose capture was made by the late Gen. Frederick Funston, has been commissioned a second lieutenant in the Philippine National Guard, and is about to enter the officers' training camp near Manila to qualify as a regular army officer. Word of young Aguinaldo's military aspirations was brought by G. A. Butz, manager of a Manila hotel, a close friend of the younger Aguinaldo, who arrived here recently.

"Miguel Aguinaldo was commissioned a second lieutenant in the Philippine National Guard by Governor General Harrison a few days before I left Manila," said Butz. "At the same time his father declined to accept a post of high command."

PETE HERMAN DEFEATS EGGER'S OF NEW YORK

(By Associated Press.)

PHILADELPHIA, Sept. 18.—Pete Herman, bantam champion, easily defeated "K. O." Eggers of New York in a six-round bout here last night. Herman had the better of every round. Eggers weighed under 118 pounds, while Herman was a fraction over weight.

COUNT VON BERNSTORFF RECEIVED BY SULTAN

(By Associated Press.)

LONDON, Sept. 18.—Count Von Bernstorff, formerly German ambassador to the United States and recently appointed ambassador to Turkey, was received by the sultan yesterday and presented his credentials, according to a dispatch from Constantinople.

If things get much worse in this country, the farmers will be wanting a government specialist to manure their nails for them.—Dallas News.

Hartford Policies Buried in a Keg at Midnight

After the Charleston, S. C., fire, during the Civil War, policy holders of the Hartford Fire Insurance Company despaired of collecting their claims. "Give me your papers," said the Hartford's local agent. "You will get your money." The document were buried in a keg at midnight. At the end of the war they were forwarded to Hartford and the claims promptly paid. You can be sure of a fair, prompt settlement if you are insured in the Hartford Fire Insurance Company.
